Mini-Project & Exam Briefing

Ravi Suppiah
Lecturer, NUS SoC

The Architecture for the Digital World®

ARM

Mini-Project Competition Run (Friday the 13th)

- All Teams to report to the lab as per the allocated timing.

- Once they have reported, proceed to the TA's for the assessment on the Requirement's Checklist.

- Once done, you can perform the Competition Run.
  - You have TWO attempts that MUST be taken consecutively.
  - The best Score will be taken.

- As the Leaderboard is dynamic, the results will only be released after all the teams have completed the competition run.

Mini-Project

- Other Deliverables
  - Report
    - Strictly follow the Page Limit
  - Code
    - Only submit YOUR own source code in a zip file
   - No need to include the RTX library
  - Video
    - Strictly follow the Time Limit

- Deadline: 22nd November 11:59PM
  - You have been given an additional 9 days to do this so no more extension after that.

ARM
